

Zugang und Umgang mit WeSIS/-pedia

Interner Workshop der Projektgruppe A03

12.07.2021

10 – 13 Uhr

Andrea Schäfer

AGENDA

- (1) Zugang zu WeSIS/-pedia**
- (2) Neue Indikatorbeschreibung aufnehmen in WeSISpedia**
- (3) Daten vorbereiten/editieren**
- (4) Daten für den Indikator in WeSIS hochladen**
- (5) Mögliche Indikatoren für SER in WeSIS/WoL**

Zugänge zu WeSIS/-pedia

WeSISpedia – Dokumentation der Indikatoren
Zugang über:

https://seth.informatik.uni-bremen.de/wesis/wiki/index.php/Main_page

WeSIS - interaktives webbasiertes
Informationssystem

Zugang über:
<https://www.wesis.org/>

**Aber
zunächst!**

(1) Vorbereitung für den Zugang zu Wesis /WeSISpedia

Erstellen eines User-Accounts

- » Einloggen unter https://seth.informatik.uni-bremen.de/wesis/wiki/index.php/Main_pag
- » User: ***
- » Passw: ****
- » Anklicken „Create account“ (rechte obere Ecke)
- » Eingabe persönlicher Login-Daten
- » **Für Be- und Überarbeitung von WeSIS/-pedia immer „Log in“ mit persönlichem Account notwendig**

Beispiel: Einführung Arbeitsrecht

Ausgangssituation: Informationen, die ich von Heiner bekommen habe

- a. Excel-Tabelle mit 4 Informationen - Arbeitsblatt „worker protection“
- b. Name des Indikators: Introduction dates employment legislation
- c. Beschreibung: The year of introduction of the first law concerning the regulation of contracts, e.g. protection, concerning subordinate, remunerated employment or typical aspects thereof by a national government. Legislation covered shows that the employment relationship or any of its aspects have been regulated distinctly from other forms of private (civil or common) law. Legislation without protective aspects (e.g. Master & Servant legislation regulating indentured labour) has not been coded. Legislation is coded for nation states and their legal predecessors or characterising parts thereof.

Alle weiteren Einordnungen und Beschreibungen habe ich vorgenommen.

Indikatorbeschreibung in WeSISpedia

(2) Neue Indikatorbeschreibung aufnehmen in Wesispedia

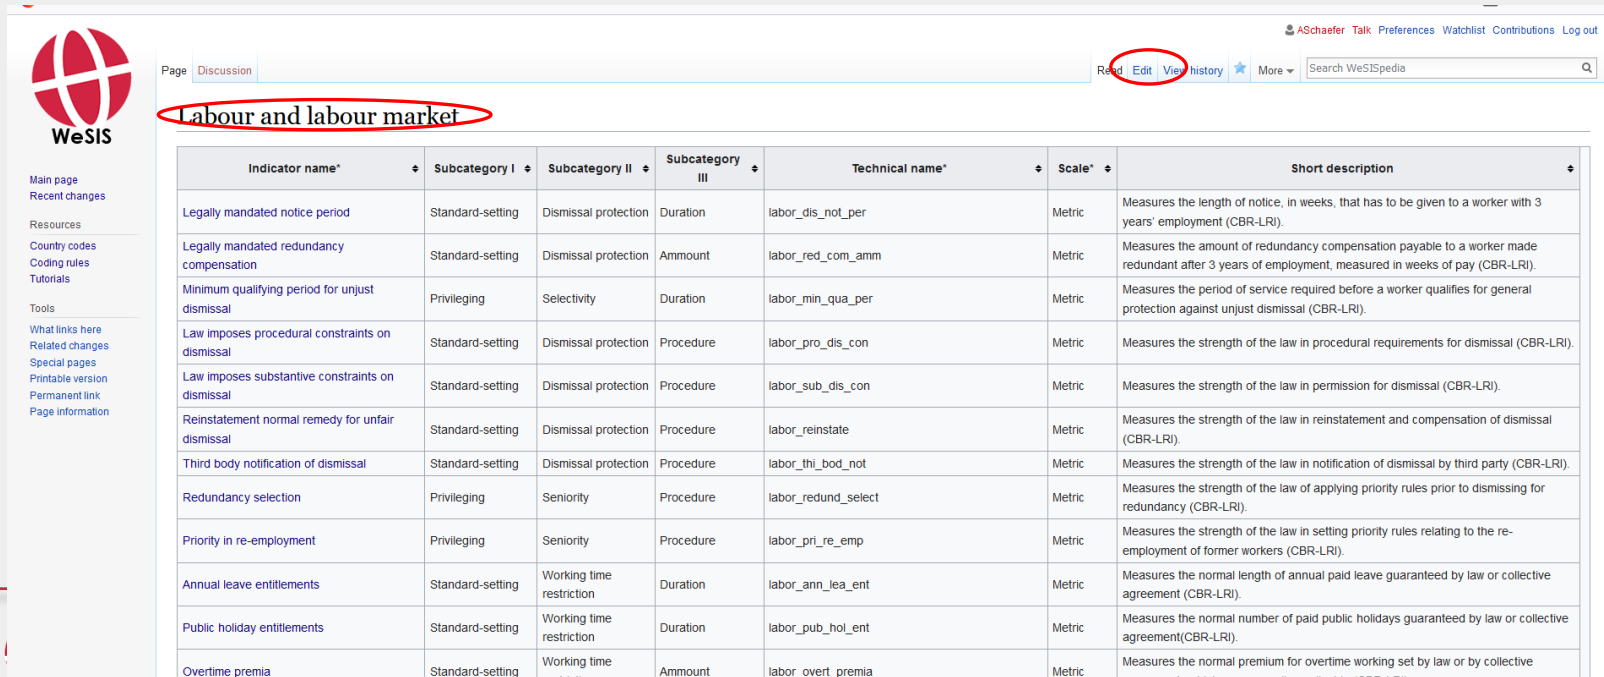

1. In welchem Bereich soll der neue Indikator eingefügt werden?

Bisherige Bereiche für A03

(2) Neue Indikatorbeschreibung aufnehmen in Wesispedia

2. Beispiel für einen neue Indikatorenbeschreibung: ‚Introduction dates employment legislation‘ – Bereich ‚Labour and labour market‘ ausgewählt – dann auf ‚Edit klicken‘

The screenshot shows the Wesispedia interface. The 'Labour and labour market' category is selected and circled in red. The 'Edit' button is also circled in red. The table below lists various indicators with their names, subcategories, technical names, and short descriptions.

Indicator name*	Subcategory I	Subcategory II	Subcategory III	Technical name*	Scale*	Short description
Legally mandated notice period	Standard-setting	Dismissal protection	Duration	labor_dis_not_per	Metric	Measures the length of notice, in weeks, that has to be given to a worker with 3 years' employment (CBR-LRI).
Legally mandated redundancy compensation	Standard-setting	Dismissal protection	Amount	labor_red_com_amm	Metric	Measures the amount of redundancy compensation payable to a worker made redundant after 3 years of employment, measured in weeks of pay (CBR-LRI).
Minimum qualifying period for unjust dismissal	Privileging	Selectivity	Duration	labor_min_qua_per	Metric	Measures the period of service required before a worker qualifies for general protection against unjust dismissal (CBR-LRI).
Law imposes procedural constraints on dismissal	Standard-setting	Dismissal protection	Procedure	labor_pro_dis_con	Metric	Measures the strength of the law in procedural requirements for dismissal (CBR-LRI).
Law imposes substantive constraints on dismissal	Standard-setting	Dismissal protection	Procedure	labor_sub_dis_con	Metric	Measures the strength of the law in permission for dismissal (CBR-LRI).
Reinstatement normal remedy for unfair dismissal	Standard-setting	Dismissal protection	Procedure	labor_reinstate	Metric	Measures the strength of the law in reinstatement and compensation of dismissal (CBR-LRI).
Third body notification of dismissal	Standard-setting	Dismissal protection	Procedure	labor_thi_bod_not	Metric	Measures the strength of the law in notification of dismissal by third party (CBR-LRI).
Redundancy selection	Privileging	Seniority	Procedure	labor_redund_select	Metric	Measures the strength of the law of applying priority rules prior to dismissing for redundancy (CBR-LRI).
Priority in re-employment	Privileging	Seniority	Procedure	labor_pri_re_emp	Metric	Measures the strength of the law in setting priority rules relating to the re-employment of former workers (CBR-LRI).
Annual leave entitlements	Standard-setting	Working time restriction	Duration	labor_ann_lea_ent	Metric	Measures the normal length of annual paid leave guaranteed by law or collective agreement (CBR-LRI).
Public holiday entitlements	Standard-setting	Working time restriction	Duration	labor_pub_hol_ent	Metric	Measures the normal number of paid public holidays guaranteed by law or collective agreement(CBR-LRI).
Overtime premia	Standard-setting	Working time restriction	Amount	labor_overt_premia	Metric	Measures the normal premium for overtime working set by law or by collective agreement which are generally applicable (CBR-LRI).

(2) Neue Indikatorbeschreibung aufnehmen in WeSispedia

Das Fenster ‚Editing Labour and labour market‘ öffnet sich

Nun erfolgt die Eingabe der Informationen für den neuen Indikatoren im Format

-
- | [[INDICATOR NAME]]
- | SUBCATEGORY I
- | SUBCATEGORY II
- | SUBCATEGORY III
- | TECHNICAL NAME
- | SCALE
- | DESCRIPTION
-

The screenshot shows a web browser window with the URL https://seth.informatik.uni-bremen.de/wesis/wiki/index.php?title=Labour_and_labour_market&action=edit. The page title is "Editing Labour and labour market". The main content area contains a code editor with the following text:

```
[[Type of employment law (string)]]
Labour Law
Individual labour law
Labour law typ
labor_emplaw_typ_string
String
Typology of legal segmentation in employment law with related types and middle category (CRC 1342).
-
[[SFE-Type of employment law ]]
Labour Law
Individual labour law
Labour law typ
labor_emplaw_typ_short
Multinomial
Typology of legal segmentation in employment law (CRC 1342).
-
[[SFE-Type of employment law (string)]]
Labour Law
Individual labour law
Labour law typ
labor_emplaw_typ_short_string
String
Typology of legal segmentation in employment law (CRC 1342).
-
}}
```

Below the code editor is a "Summary:" field, a checkbox for "This is a minor edit", and a checked checkbox for "Watch this page". At the bottom, there are buttons for "Save changes", "Show preview", "Show changes", "Cancel", and "Editing help (opens in new window)".

(2) Neue Indikatorbeschreibung aufnehmen in Wesispedia

INDICATOR NAME – sollte kurz, präzise und eindeutig den Inhalt des Indikators wiedergeben (für unser Beispiel: [Introduction dates employment legislation](#))

SUBCATEGORY I – Gibt die Einordnung des Indikators wieder – höchste Abstraktionsebene (für unser Beispiel: [employment legislation](#))

SUBCATEGORY II – Gibt die Einordnung des Indikators wieder – mittlere Abstraktionsebene (für unser Beispiel: [employment protection](#))

SUBCATEGORY III – Gibt die Einordnung des Indikators wieder – niedrige Abstraktionsebene (für unser Beispiel: [regulation of contract](#))

(2) Neue Indikatorbeschreibung aufnehmen in WeSispedia

TECHNICAL NAME – für A03 muss er im Bereich Labour and labour market immer mit labor_ beginnen
(für unser Beispiel: labor_employleg_employpro_regcontract)

Technical variable names: Within WeSIS every indicator has a technical name. The topics define the initial abbreviation followed by an underscore. Add a meaningful suffix afterwards using underscores as well, e.g. polnat_election_date_1st_chamber (*not* polnat.electiondate) for an indicator capturing the election date of the 1st chamber. The name must be unique and may encompass subtopics, units and sources if necessary.

A recommended pattern reads as follows: *topic_subcategory1_subcategory2_name_unit_source* (for example: *health_hospitals_beds_per1000_ibge* or *econrel_trade_total_import_usd_wto*).

Notes: Try to not exceed the limit of 128 characters for the full name including any underscore. Stick to lower-case letters for the technical name (already uploaded data will not be affected however).

Social policies (Y)

Topic	Prefix
Old age and survivors	old_
Labour and labour market	labor_
Health and long-term care	health_
Education and training	edu_
Family policies	fam_
Gender aspects	gend_

Domestic conditions (X1)

Topic	Prefix
Policy legacies	polleg_
Economic and financial factors	econnat_
Political factors	polnat_
Social structure	socstr_
Culture	cult_
Geography	geo_

Interdependencies and relations (X2)

Topic	Prefix
Communication	comm_
Political institutional linkages	polrel_
Economic relations	econrel_
Migration	migra_
Violent conflicts	confl_

TECHNICAL NAME muss eineindeutig!!! sein und verbindet WeSISpedia (die Dokumentation) mit WeSIS (der Datenbank)

(2) Neue Indikatorbeschreibung aufnehmen in WeSispedia

SCALE

- Das Skalenniveau (scale) des Indikators muss bestimmt werden. Es steht im engen Zusammenhang zu Variablentyp (data type). WeSIS unterscheidet zwischen:

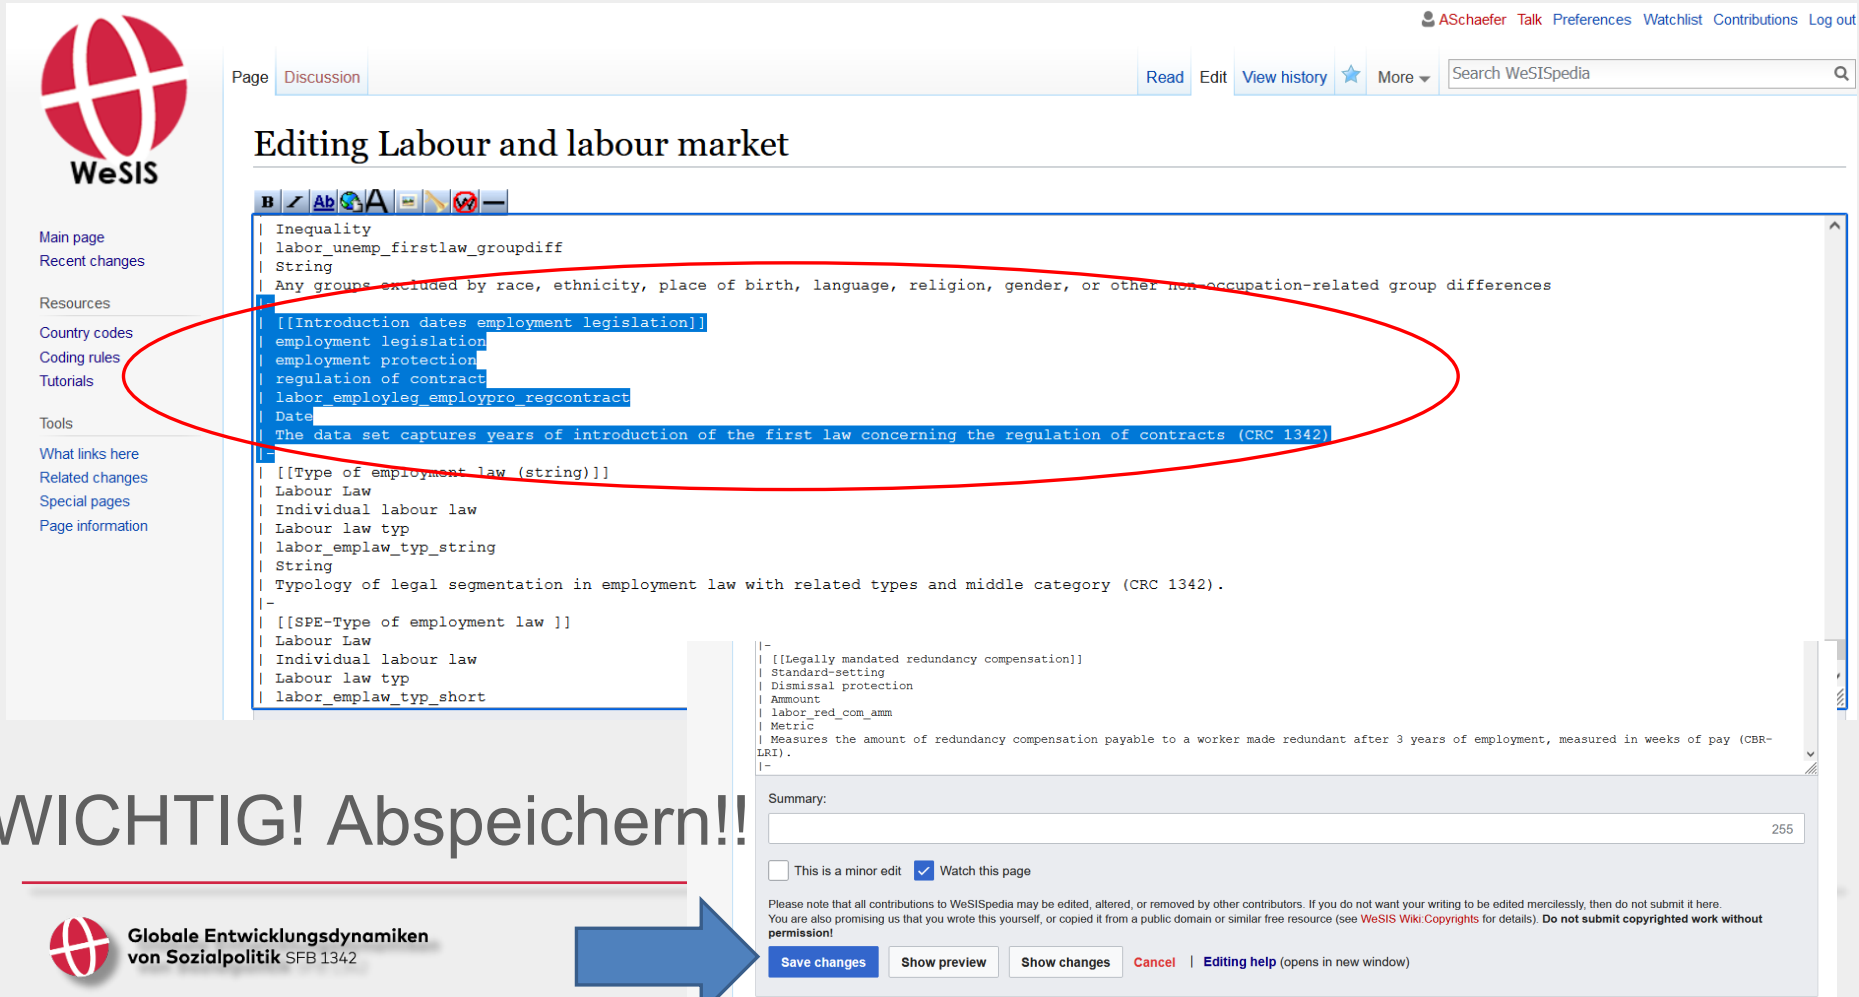

Data typ	Scale
String	string
Numeric	binary, multinomial, ordinal, metric
Date	Date

(binary = nominal dichotom [0/1]; multinomial =nominal diskret; ordinal = ordinal; metric = intervall /ratio)
(für unser Beispiel: [date](#))

DESCRIPTION – kurze eindeutige Beschreibung des Inhalts des Indikators mit dem Hinweis auf die Quelle [wenn es ein selbsterstellter Indikator ist dann (CRC 1342) hinzufügen ansonsten die Quelle wie z.B. (CBR-LRI] (für unser Beispiel: [The data set captures years of introduction of the first law concerning the regulation of contracts \(CRC 1342\)](#))

(2) Neue Indikatorbeschreibung aufnehmen in WeSISpedia

Finaler Eintrag des Indikators in WeSISpedia:

The screenshot shows the WeSISpedia editing interface for the indicator "Labour and labour market". The page title is "Editing Labour and labour market". The user is logged in as "ASchaefer". The interface includes a navigation menu on the left with options like "Main page", "Recent changes", "Resources", "Country codes", "Coding rules", "Tutorials", "Tools", "What links here", "Related changes", "Special pages", and "Page information". The main editing area contains a code editor with the following content:

```
|-
| Inequality
| labor_unemp_firstlaw_groupdiff
| String
| Any groups excluded by race, ethnicity, place of birth, language, religion, gender, or other non-occupation-related group differences
| [[Introduction dates employment legislation]]
| employment legislation
| employment protection
| regulation of contract
| labor_employleg_employpro_regcontract
| Date
| The data set captures years of introduction of the first law concerning the regulation of contracts (CRC 1342)
|-
| [[Type of employment law (string)]]
| Labour Law
| Individual labour law
| Labour law typ
| labor_emplaw_typ_string
| String
| Typology of legal segmentation in employment law with related types and middle category (CRC 1342).
|-
| [[SPE-Type of employment law ]]
| Labour Law
| Individual labour law
| Labour law typ
| labor_emplaw_typ_short
```

A red oval highlights the text "The data set captures years of introduction of the first law concerning the regulation of contracts (CRC 1342)". Below the code editor, there is a "Summary:" field with a text input and a character count of 255. There are checkboxes for "This is a minor edit" (unchecked) and "Watch this page" (checked). At the bottom, there are buttons for "Save changes", "Show preview", "Show changes", "Cancel", and "Editing help (opens in new window)".

WICHTIG! Abspeichern!!

(2) Neue Indikatorbeschreibung aufnehmen in Wesispedia

Neuer Indikator erscheint unter ‚Labour and labour market‘ in WeSISpedia:

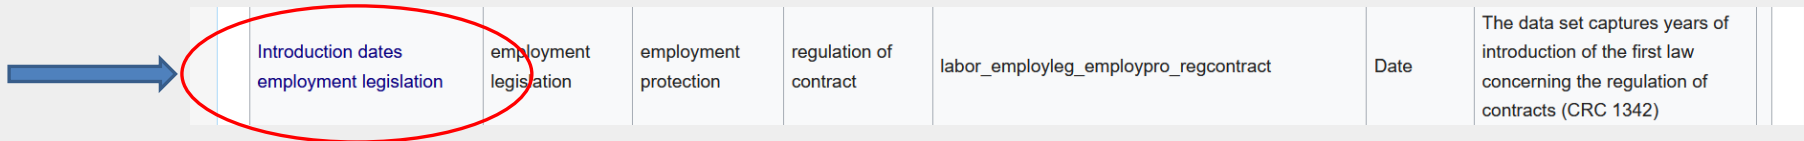

https://seth.informatik.uni-bremen.de/wesis/wiki/index.php/Labour_and_labour_market 110% ☆ Weitere Lesezeichen

Unemployment. First law beneficiaries.	Unemployment	First law	Coverage	labor_unemp_firstlaw_beneficiaries	Multinomial	Which groups were covered by the first unemployment system (CRC 1342)
Unemployment. First law benefit duration and amount.	Unemployment	First law	Benefits	labor_unemp_firstlaw_duration	String	Written description of the maximum amount and duration of unemployment (CRC 1342)
Unemployment. First law family benefit.	Unemployment	First law	Benefits	labor_unemp_firstlaw_benefit_family	Binary	Any provision for family in case of unemployment
Unemployment. First law group differences.	Unemployment	First law	Inequality	labor_unemp_firstlaw_groupdiff	String	Any groups excluded by race, ethnicity, place of birth, language, religion, gender, or other non-occupation-related group differences
Introduction dates employment legislation	employment legislation	employment protection	regulation of contract	labor_employleg_employpro_regcontract	Date	The data set captures years of introduction of the first law concerning the regulation of contracts (CRC 1342)

HINWEIS: Bislang undokumentierte Indikatoren erkennt man an dem **roten INDICATOR NAME**; bereits dokumentierte an dem **blauen INDICATOR NAME**

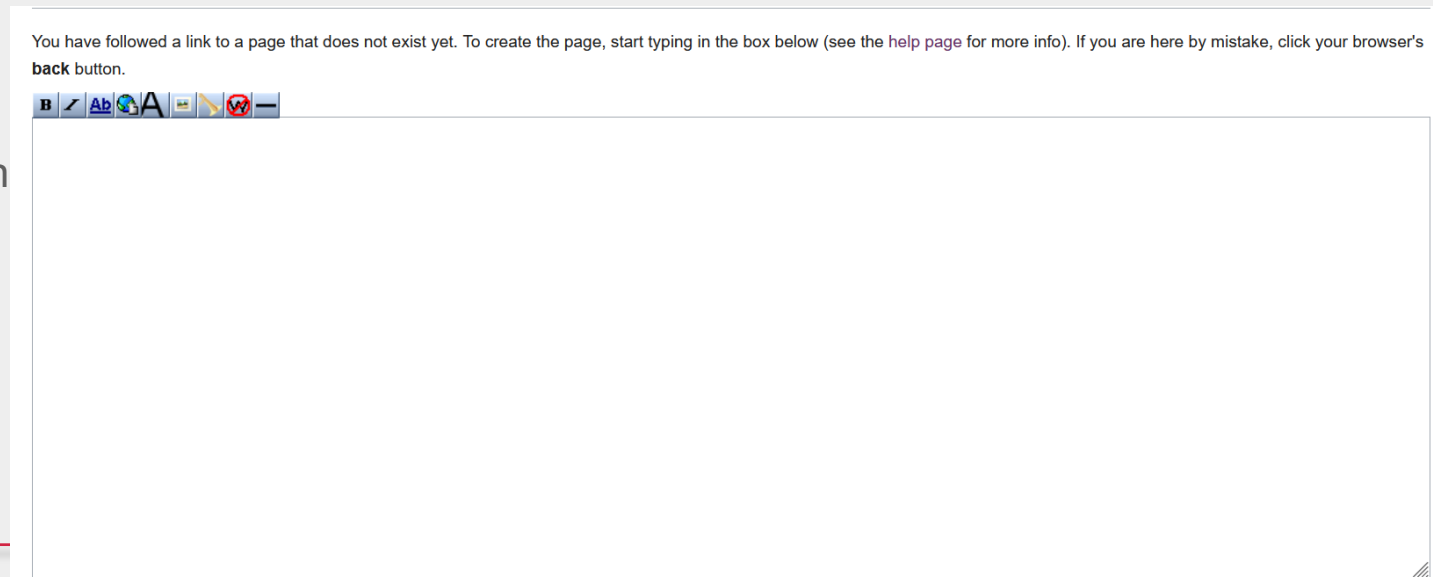

(2) Neue Indikatorbeschreibung aufnehmen in Wesispedia

3. Anlegen der Beschreibung des neuen Indikators!
Dazu auf den Indikatorennamen ‚klicken‘

Abspeichern! (Vorher kannst Du Dich in einer Preview vergewissern, dass alles korrekt dargestellt wird)

(2) Neue Indikatorbeschreibung aufnehmen in Wesispedia

HINWES: Aktuell werden Änderungen im Design von WeSISpedia vorgenommen, die die Konsistenz der Darstellung der Indikatoren erhöhen sollen:

- “Revisions” bekommt Erweiterung “No revisions yet” für Indikatoren, die nicht geändert wurden
- Bei “Data release” wird “Version 0.001: Initial release” eingefügt; bei Änderungen der Daten muss dieses Feld dann auch geändert werden!

(2) Neue Indikatorbeschreibung aufnehmen in WeSISpedia

Und, schon ist die Indikatorenbeschreibung in WeSISpedia fertig ... nun noch

The screenshot shows a web browser window displaying a WeSISpedia article. The browser's address bar shows the URL: https://seth.informatik.uni-bremen.de/wesis/wiki/index.php/Introduction_dates_employment_legislation. The page title is "Introduction dates employment legislation". The main content area contains a paragraph describing the year of introduction of the first law concerning the regulation of contracts, e.g. protection, concerning subordinate, remunerated employment or typical aspects thereof by a national government. It notes that legislation covered shows that the employment relationship or any of its aspects have been regulated distinctly from other forms of private (civil or common) law. Legislation without protective aspects (e.g. Master & Servant legislation regulating indentured labour) has not been coded. Legislation is coded for nation states and their legal predecessors or characterising parts thereof.

On the right side, there is a "Quick info" table:

Quick info	
Data type	Date
Scale	Date
Value labels	<ul style="list-style-type: none">YYYY = year of introduction of the first law
Technical name	labor_employleg_employpro_regcontract
Category	Labour and labour market
Label	year of introduction of the first law
Related indicators	

On the left side, there is a navigation menu with the WeSIS logo and various links: Main page, Recent changes, Resources, Country codes, Coding rules, Tutorials, Tools, What links here, Related changes, Special pages, Printable version, Permanent link, Page information.

Below the main text, there are sections for "Coding rules" (with an edit link), "Bibliographic info" (with an edit link), and "Misc" (with an edit link). The "Bibliographic info" section includes a "Citation" field with the value "Codebook" and a "Related publications" section. The "Misc" section includes a "Project manager(s)" section with a list of names: Heiner Fechner and Andrea Schäfer.

Daten editieren!

d.h.

1. Daten in Augenschein nehmen und sichtbare Fehler ausbessern und dokumentieren
2. Stata-do file schreiben um Rohdaten in entsprechende Formate zu überführen und nötige Informationen dazu zu fügen!

Do-Files für das A03 Projekt zum Datenupload in WESIS Version 0.002 (2024) wurden von Andrea Schäfer erstellt.

Datenbeschreibungen von 102 Variablen für das A03 Projekt zum Datenupload in WESIS Version 0.002 (2024) wurden von Andrea Schäfer erstellt.

Daten in WeSIS hochladen!

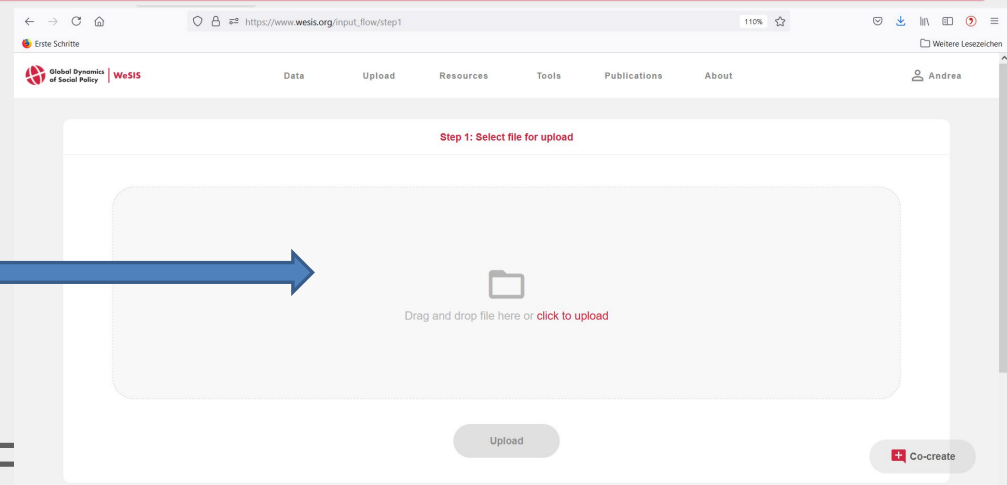

(4) Daten für den Indikator in WeSIS hochladen

Auf <https://www.wesis.org/> einloggen und „Upload“ anklicken und dann auf „Start Upload“ gehen!

(4) Daten für den Indikator in WeSIS hochladen

a) Excel-Datei mit Daten auswählen und in das Fenster ziehen.

b) „Upload“ anklicken und Datenprüfung abwarten
Falls die Excel-Datei noch Fehler der Datenprüfung angezeigt und dann muss Schritt 3 wiederholt werden!

c) Ist die Datenprüfung erfolgreich und die Daten validiert, auf upload klicken und dann gibt es eine Bestätigung des ‚Uploads‘ und eine Email.

(4) Daten für den Indikator in WeSIS hochladen

Indikator (inkl. Daten) sind zu finden unter den jeweiligen Kategorien, d.h. für unser Beispiel unter Labour and labour market/ employment legislation/ employment protection/regulation of contract ...

The screenshot shows a web browser window displaying the WeSIS website. The address bar shows the URL: <https://www.wesis.org/indicators/categories?category=+and+labour+market#Employment+legislation>. The page header includes the logo for 'Global Dynamics of Social Policy | WeSIS' and a navigation menu with items: Data, Upload, Resources, Tools, Publications, About. A user profile 'Andrea' is visible in the top right. The main content area shows a breadcrumb trail: 'Topics overview > Labour and labour market'. Below this, the title 'Labour and labour market' is centered. A grid of category buttons is displayed, with 'Employment legislation' highlighted in red. Below the grid, a list of sub-categories is shown, with 'Regulation of contract' highlighted in blue. Underneath, the text reads: 'Introduction dates employment legislation' and 'The data set captures years of introduction of the first law concerning the regulation of contracts (CRC 1342)'. A 'Co-create' button is located in the bottom right corner.
